MONEY, BONDS AND STOCKS.

A Quiet but Dult Market, All Active Stocks Selling at Lower Prices. NEW YORK, July 19 .- Money on call was easy

Prime mercantile paper, 4 @6} per cent. Sterling exchange was dull but steady and unchanged.

at 1014 per cent., closing offered at 14.

The total sales of stocks to-day were 183,040 shares, including the following: Delaware, Lackawanna & Western, 13,925; Erie, 15,080; Lake Shore, 4,300; Louisville & Nashville, 3,610; Northern Pacific preferred, 6,814; Reading, 30. 350; Richmond & West Point, 8,820; St. Paul, 25,-

605; Texas Pacific, 4,780; Union Pa-cific, 9,530; Western Union, 9,175. The stock market to-day was quiet to dull and

hesitating, but the general drift of prices was downward, though the losses sustained were insignificant in most of the list. There was less demand for stocks than during the preceding days, and the traders hammered the list throughout the entire day, while there were free realizations by the short-waisted "bulls." and though the commission-houses report some discretionary orders to buy, the aggregate was very small, and was entirely insufficient to stem the tide of stocks thrown on the market. The number of stocks dealt in during the day shows a marked falling off from those of the preceding days of the week. St. Paul was the special feature of the day, and the publication of the story, early in the day, that Mr. Armour had sold out all his speculative holdings of the stock, made it quite weak in the forenoon, and the rest of the list sympathized quickly. Reading was more active than of late, but the pressure upon it was not so severe as upon most of the other active stocks, and it was comparatively well heid. The only other really active stock was New England, and it was exceptionally strong, though its final changes were for insignificant fractions only. There was a fairly active business at the opening, but prices were unsettled and irregular, though most of the important changes from last evening's figures were in the direction of higher prices, New England being up # and Erie #. The pressure upon the list developed a weak tone immediately, however, and everything on the list, with Reading, St. Paul and New England in the van, yielded materially during the first hour. The special feature of trading at that time was a drop of 11 per cent. in Rock Island. The market soon fell into a dull and listless state, with very small transactions and fluctuations, which lasted with very little interruption until near 2 P. M., a downward movement in Lackawanna and New England being the only break in the monotony. There was some slight recovery, but the list remained dull, and the market finally closed dull and barely steady at near the lowest prices of the day. Everything is lower this evening, and Rock Island is down 14; Richmond & West Point preferred, 12; the common, 1 per cent.; St. Paul, 14; Northwestern, Lake Shore and Omaha, 1 per cent. each, and others fractional amounts.

The railroad-bond market was fairly active to-day, the sales of all issues aggregating \$1 .-532,000, out of which \$220,000 were in Erie seconds, and \$157,000 in Texas Pacific seconds, while the rest of the business was evenly distributed. The principal gains comprise St. Paul and Sloux City firsts, 21 to 1252; Louisville & Nashville, New York, Susquehanna & Western seconds, 31 to 771; Norfolk & Western adjustments, 2 to 112.

CHICAGO, July 19-It was the "bulls" and continental news against the "bears" and Liverpool this morning in wheat, with the "bulls" winner in a mild way in the forepoon, and still better before the close. Cables, public and pri vate, were weak, while the continental advices, particularly on weather, were favorable to bet-ter prices. With good clearances and even a slight decrease in receipts, there would have been covering enough here to have sent wheat up with corn. Such was not the case. Receipts here were 67 cars, with quite a proportion of the new No. 2 in the line. Export clearances were a little under 50,000 bu at New York, and nothing to speak of elsewhere. Prices opened to to to under last night, and for a few moments promised a further decline, but instead there was a reaction, which not only recovered the loss at the opening, but put August wheat above 80c before the close. August sold at 79%c, lowered to 79% @97%c, sold up to 79%c, went off again to 79% @ 79%c, afterward advanced to 80% 2801c, but quickly dropped back to 80c, closing at 80 c. There was a good demand for cash corn sgain to-day, and a good speculative demand, which resulted in a further advance of 2c for early futures and to for October. Local re-ceipts were 193 cars, and 200 cars were estimated for Friday. Of the cars received, 95 were graded No. 2. The out inspection amounted to 283,000 bu. There was buying in big lots by local houses early, and the "shorts" took freely and helped prices upward. A careful broker summarized it in this way: "For a few days the "shorts" have taken the corn just as the "longs" desired to sell. To-day they became a little anxious and wished it faster than the sellers gave it to them, and they bid up for it." July sold at 46; 348;c, closing at 48;c; August, 46; 348c, closing at 47;c. Oats acted precisely as on Wednesday, showing no special activity and no change of price at the close. July sold at 30 2 @ 31c; August, 251 @ 254c, closing at the outside prices. The market for provisions was stronger. and prices on all speculative articles averaged higher, closing sales being at an advance of 15c on pork, .05c on lard, and .07to on short ribs. The advance was actributed to the continued light run and advancing prices for hogs, the light offerings for cured product, and the disposition on the part of "shorts" who have recently sold too freely to cover their trades. In their efforts to do so they were forced to bid prices up. August pork advanced 22½c, but receded 10c, and closed at \$13.60. August lard advanced .12jc, but weakened .07jc, and closed at 7.40c. Short ribs appreciated .12jc, but receded, and closed at 7.82 c. The leading futures ranged as

INDIANAPOLIS MARKETS.

Trade Begins to Improve in Several Depart. ments-The Tone of Prices Strong.

INDIANAPOLIS, July 19. In several departments merchants report a steady and healthy improvement in trade, and it is thought that the dullest days of the year have been passed. Dry goods men speak of their business as highly satisfactory for the last half of July, and with this prices rule strong on nearly every line of goods. Grocers are busier: there is a large distribution of sugars and a freer movement of coffees. Ar increased demand for rice, spices and some descriptions of foreign fruits is noticeable. Hardware men are quite busy, and with this prices are somewhat firmer. The iron men report trade a little slow as yet, but prices slightly firmer. Dealers in tinners' supplies are having an excellent trade, and prices have become steady and firm. Provision dealers report the demand for hams, short ribs and sides as good and prices tending higher. In a jobbing way a good deal is doing. The produce markets were never more active. Commission men are doing no grumbling, as the arrivals of eggs, poultry and butter, if choice, are easily disposed of at good prices for mid-summer. The same remark will apply to fruits and vegetables. Potatoes, cabbage and onions have dropped to prices where people of limited means can be supplied, which was not the case three weeks ago, yet the range of prices for the three articles named is higher than that of one year ago. Good apples sell well at fair prices. Small green fruit meets with poor sale. Receipts of peaches are on the increase, but there is no trouble in disposing of good, ripe, solid fruit at good prices. Raspberries are about off the market. Blackberries and huckleberries are in good supply; prices for the latter are rather high to admit of large sale. The wool market is flat. The same remark will apply to the hide

There was a little more activity to the market to-day, but there is still large room for improvement, both in prices and demand. The Indianapolis Market Report says: "Receipts of grain show small improvement. The inspections in for past two days amount to 83 cars as against 81 cars for preceding two days. Wheat offerings from the country still continue small for this time of the year, but dealers report some im-provement. The inspections show an increasing proportion of low grades, occasioned principally by the wet weather. Old No. 2 red will sell

good inquiry. Local trade would pay \$12.50 @ 13. Hay is unchanged; demand is good." Track bids to-day ruled as follows: Wheat-No. 2 Mediterranean....
